

BOATERS MUST SELF-CERTIFY BEFORE LAUNCHING

Requirements to prevent the spread of invasive mussels

A. In the last 30 days, has your boat been used in any of the following waters, all likely affected by quagga or zebra mussels:

1. Utah: Electric Lake, Red Fleet Reservoir Yes No
2. Lower Colorado River between Lake Mead & Gulf of California Yes No
3. Nevada and Arizona: Lake Mead or Lake Mohave Yes No
4. Arizona and California: Lake Havasu Yes No
5. Arizona: Lake Pleasant (Maricopa County) Yes No
6. California: San Justo Reservoir (San Benito County) Yes No
7. Southern California's inland waters in Orange, Riverside, San Diego, Imperial and San Bernardino counties Yes No
8. Colorado: Lake Pueblo, Lake Granby, Grand Lake, Shadow Mountain, Willow Creek, Jumbo Reservoir and Tarryall Reservoir Yes No
9. All waters east of the Rocky Mountains Yes No
10. Other _____ Yes No

If you answered "No" to all questions in Section A, sign form and launch.

If you answered "Yes" to any question, DECONTAMINATE AS DESCRIBED IN SECTION B:

B. Self Decontamination

1. • CLEAN all plants, fish, mussels & mud from boat Yes No
(discard unused bait in the trash).
• DRAIN all water from ballast, bilge, livewell & motor. Yes No
• DRY (7 days summer, 18 days spring/fall and 30 days winter)
or freeze (3 days) your equipment. Yes No
2. Professional Decontamination
• Use a professional to apply scalding water (140°F) to wash your boat and trailer and to flush raw water circulation systems. The decontamination professional must sign your form.

PLACE SIGNATURE SIDE OF CERTIFICATE FACING UP ON YOUR DASHBOARD

Certifying false information on this form is unlawful (Rule R657-60).

Boaters must fill out a
DECONTAMINATION
CERTIFICATION FORM
before launching. IT'S THE LAW!

Notice: It is unlawful (Rule R657-60) to launch a watercraft without first certifying that it has not been in a quagga or zebra mussel affected water within the last 30 days, or that the watercraft has been properly decontaminated. Place completed certificate on dashboard.

After boating, conduct these required decontamination steps:

- 1** { **CLEAN** all plants, fish, mussels and mud from boat.
DRAIN all water (bilge, livewells, motor).
DRY (7 days summer, 18 days spring/fall and
30 days winter) or freeze (3 days) all equipment.
- or**
- 2** Use a professional to apply scalding water (140°F) to wash your boat and trailer and to flush your motor, bilge and livewells.

Stop Aquatic Hitchhikers!™

Invasive mussels will DEVASTATE boats, fisheries and recreation areas.

If you see these mussels, call 1-800-662-3337
